

I am writing to comment on the upcoming June 2nd FCC meeting that will determine the deregulation of media ownership in America. First I believe that the June 2nd meeting should be delayed until there is adequate time for all Americans to learn about and discuss this important issue. There has not been public debate about this issue which could negatively effect the future of our democracy. I am also opposed to so few news/media organizations that will have control over America's media. I believe we have not discussed and studied the effect of this deregulation on children, on minorities and on our great diverse democracy. Please delay the vote and let all have a chance to comment of this issue.
